

HLS102 - Hazchem Sign

Hazardous chemical (hazchem/Emergency Information Panel) sign with hinged leaves.

This lightweight sign brings together both the strength of steel with the lightness and durability of aluminium to produce a versatile hinged hazchem sign to comply with Australian Dangerous Goods code version 7.

Features and Benefits

- EIP meets the government requirements for the transport of dangerous goods.
- Spring clips on each side secure leaves in place, with rubber buffers in between to stop vibration.
- Customer contact details can easily be added to the sign as required.
- Hinged panel sub-assemblies are replaceable.
- Inserts are available that can be easily slotted into place.
- Can display up to 4 dangerous goods in its standard state (Petrol, Petroleum Fuel, Combustible Liquid & a blank panel to indicate an empty tank or for customisation).
- With the addition of the HLS102-8 special sign insert, an additional 2 dangerous goods can be displayed*.

HLS102 Model Shown

Technical Information

Materials	Frame - Aluminium. Main sign - Aluminium powder coated. Hinged Signs - Galvanised Steel powder coated. Hinges - Steel Zinc plated. Buffers - Rubber. Pop rivets - Aluminium.
Standards	Complies with Australian Dangerous Goods Code, 7th Edition
Dismantle	If replacement of the leaves is required simply drill out 8 off pop rivets and replace the leaves using a hand operated pop rivet gun.
Mounting	4 off M8 Bolts.
Weight	5.3 kg each (Total for Tank = 16 kg).

Ordering Information

HLS102: Hazchem Sign - Standard state.

HLS102-BIT: Alternate Part – For BITUMEN PRODUCTS.

Associated Equipment

HLS102-8: Special Insert with text as required.

HLS102-9: Special Insert – AVIATION TURBINE FUEL & AVIATION GASOLINE.

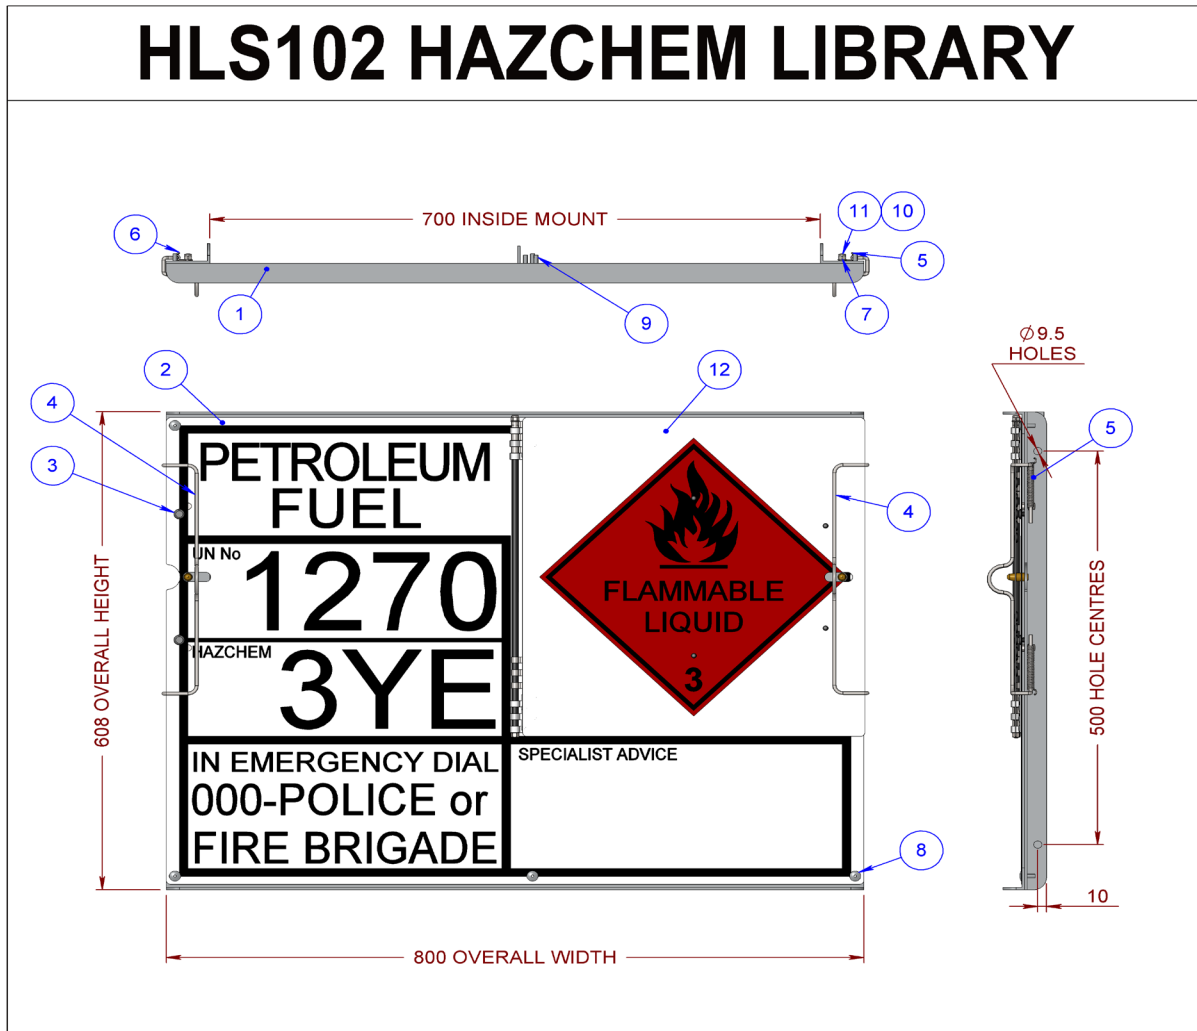

HLS102-12: Special Insert - ETHANOL & METHANOL.

HLS102-20: Bitumen Hazchem sign replacement sub assembly.

HLS102-30: Standard Hazchem sign replacement sub assembly.

* - Pending Configuration.
